Took off all your masks. Listen to the new arias. In the **Exhibition in Virtuality** the visit of a virtual art gallery is composed of **five rooms**. Five rooms for five pictures by **GERACHO ARIAS**. The work catches the mind in an oneiric walk where the colors give perspective to the landscape and the figures they animate. The shades and inspirations of Ecuador meet the tradition of Surrealism, in a ring structure from the entrance with a self-portrait to the exit with the Organism, a universal One.

**AniMacKtiS** is the ambient/avant-garde duo - formed by **Silvia Marcantoni Taddei** and **Massimo Sannelli** - that translates every picture into music. Classical guitar, electronics, harmonica, vocals and beyond suspicion instruments as a kazoo, a cheap melodica and a toy cithara become the way to speak in sounds the language of masks, lovers, bodies, states of soul.

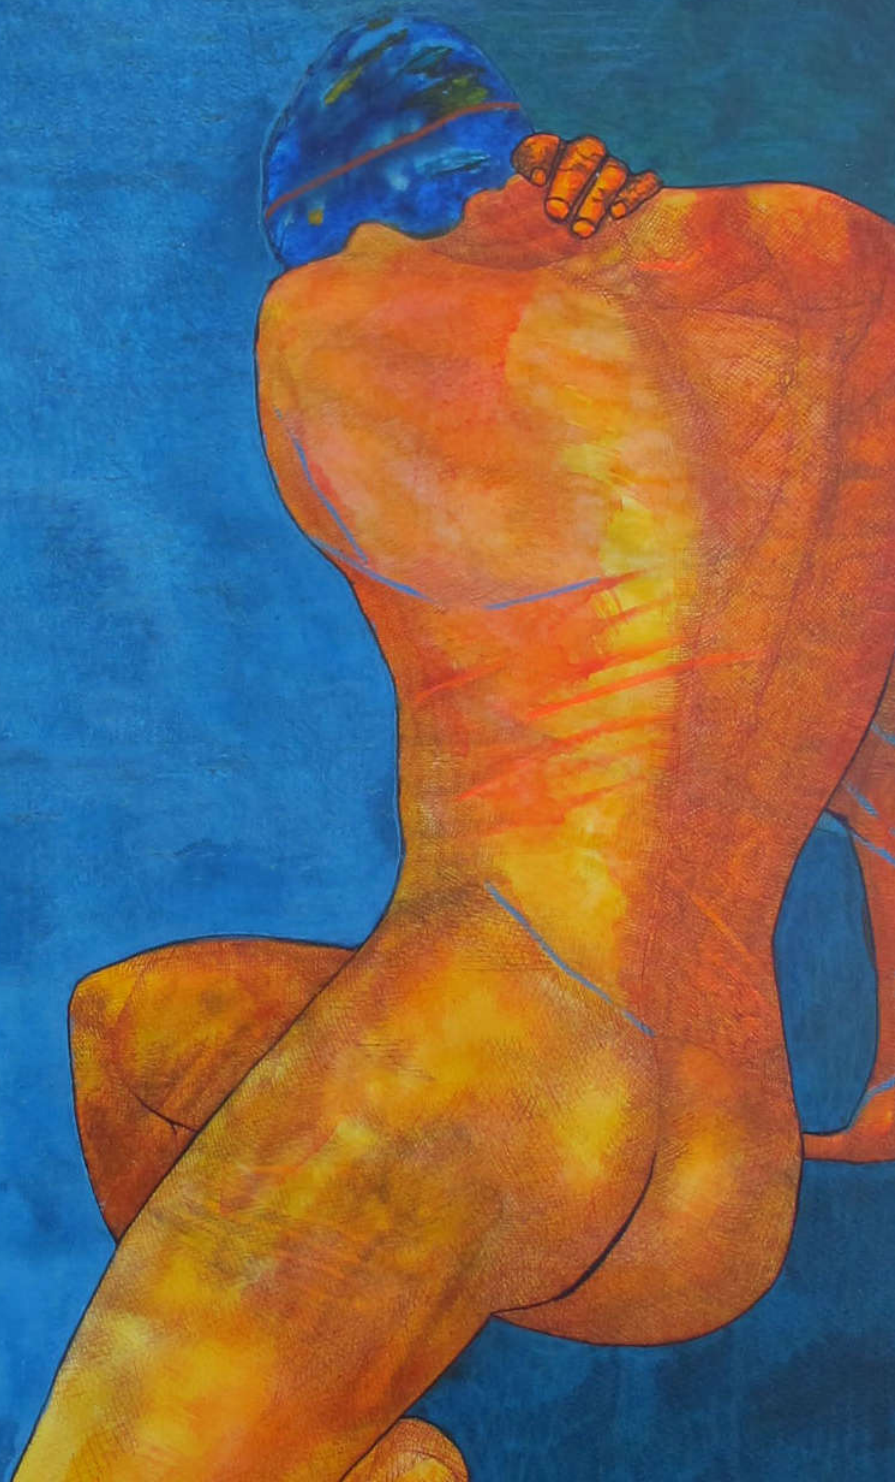

Always looking forward to the next line.
